

# POLE Slim mounting pole

## For a Wallbox eM4 Single

The POLE Slim mounting pole is used for outdoor installation of a separately available Wallbox eM4 Single from ABL. The POLE Slim adapter plate supplied serves as a support for the wallbox and is attached to the mounting pole with the accompanying installation kit. The compact and functional design of the POLE Slim makes it ABL's most cost-effective mounting pole solution. It is therefore especially recommended for installation in enclosed company car parks and residential complexes. To ensure a harmonious general appearance, the mounting pole and adapter plate are colour-coordinated with the separately available Wallbox eM4 Single. The POLE Slim's modular concept makes it possible to retrofit an additional adapter plate for fixing a second Wallbox eM4 Single. In addition, up to two CABHOLD cable holders, available as accessories, can be mounted on the POLE Slim. For maximum stability, ABL recommends installing the POLE Slim on the optionally available prefabricated concrete foundation for the POLE Slim mounting pole.
