

GU5.3 LED LIGHT MR16 DIMMABLE

Produced according to the latest European energy-efficiency rules and with a very low energy usage combined with a high light output, this product fulfils the newest energy regulations!
All our GU5.3 lamps work on 12V and should therefore be combined with a 12V transformer.

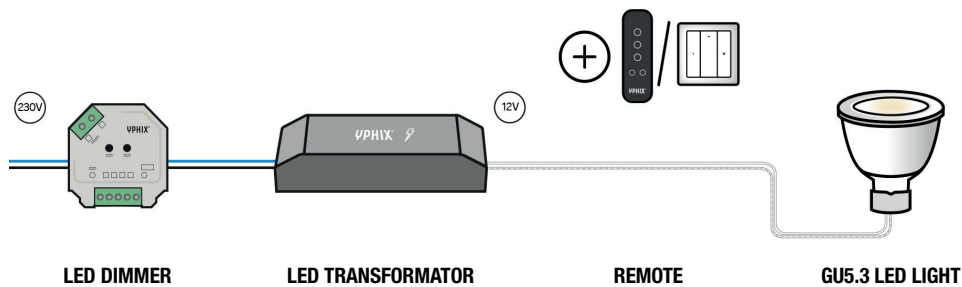

DIMMABLE WITH RF REMOTE

Dim wireless with an RF remote? Choose the wireless LED dimmer 230V combined with a dimmable 12V DC LED transformer. The dimmer will be placed before the transformer.

You can choose to use one of our remotes, but also a modern wall remote.
