

LED STRIP 5M 12V IP20 300 SMD 3528 LEDS

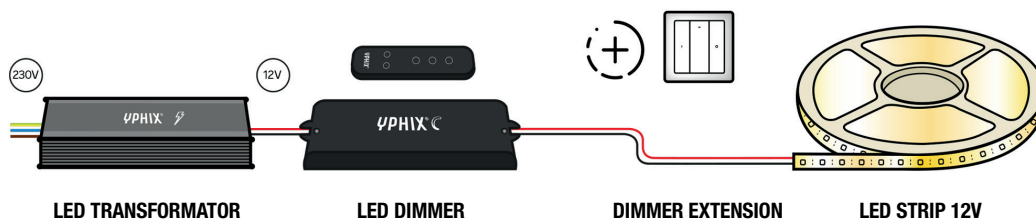

Art. no. 50055095

DIMMABLE WITH RF REMOTE 1 ZONE

Wireless dimming with RF remote or touch dimmer: Choose the DRF-T10 dimmer together with a non-dimmable 12V DC transformer. The dimmer will be placed between the transformer and the stripe. This is a perfect combination when you want to dim and switch the LED stripe wireless with a 100% dimming range. It is also possible to control your stripe with a pulse switch or wall remote on the wall. Another possibility is to control the stripe with a touch dimmer, which is perfect for the kitchen!
